Chairman, DCI Intelligence Information

SUBJECT: Proposed Terms of Reference for an IHC
Bibliographic and Document Retrieval Study

Attached is a copy of a proposed terms of reference for an IHC study to review the CIA proposal to determine the feasibility and desirability of establishing a centralized Community bibliographic and document storage and retrieval system. After discussing the matter with proponents, and giving due consideration to comments which we received regarding the original proposal for a broad scale review, there appears to be a consensus that a more narrowly focused, shorter term study would produce tangible results much more quickly. If we can agree at the next meeting, I would like to suggest that we adopt the enclosed terms of reference so that we can take prompt action on the CIA proposal.
